

# Quick Start Guide:

## Setting up your Wi-Fi and App

- 1 Download the app. You can search either the Apple App Store or Google Play Store for: "Consolidated MyNetwork" then install it on your mobile device.

- 2 Select "Let's get Started" towards the bottom of the screen.

- 3 Enter your personal information. The password you enter here will be used to access the app. Click on "Don't have an account? Sign up"

**Note:** Please wait at least 10 minutes after your Managed Router has been "booted up" before attempting step 4.

- 4 Tap the QR code that appears within the app. (You will be asked to allow the app to access your camera.)  
Point your camera at the QR Code found on the bottom of your Managed Router, or on the sticker that came in your box (example shown below).

Select OK.

- The Network Name (SSID) is what you will use as your wireless connection name.
- Select a password for your wireless network. If you do not want to change it on all the devices in your home, use your existing wireless SSID and Password from your current router. If router is picked up from Consolidated office, you can skip this step.

**Click Submit and you're all done!**

## Getting started with the App

The App allows you to manage your home Wi-Fi network. You can self-install and be managing your home within a few minutes. Download the app and start managing your home network today!

**Next:** Refer to the *MyNetwork* Consumer Product Guide for details on how to use specific features.
